

## Route 53 Pricing and Cleanup

Chandra Lingam, Copyright © 2019 Cloud Wave LLC. All Rights Reserved.

Route 53 Demo requires creation of Hosted Zones. Each Hosted Zone is charged at \$0.50 per Month. Hosted Zones that are removed within 12 hours of creation do not incur a charge.

After all the demos', follow these checklists to remove the resources:

1. Remove EC2 instances launched for the demo. Some demos require instances across three regions
2. Remove Elastic IP Address that were created for this demo
3. Remove any RDS MySQL Database Instances that were created for this demo
4. Remove Hosted Zones created for the demo - ensure you remove any additional records other than NS and SOA records before deleting the Hosted Zone
5. Review Billing Dashboard to ensure there are no surprise charges
